Sir:

Pursuant to a telephone conversation between the Examiner and the undersigned on August 27, 1990, and the Official Action mailed September 7, 1990, please further amend the claims as follows:

IN THE CLAIMS

Please cancel claims 67-100.

Please renumber these claims as follows:

-- 101

A process for producing an Ig molecule or an immunologically functional Ig fragment comprising at least the variable domains of the Ig heavy and light chains, in a single host cell, comprising the steps of:

- (i) transforming said single host cell with a first DNA sequence encoding at least the variable domain of the Ig heavy chain and a second DNA sequence encoding at least the variable domain of the Ig light chain,
